Please find below a communication from the EXAMINER in charge of this application.

Commissioner of Patents

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under Ex parte Quayle, 1935 Comm'r Dec. 11 (1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on December 13, 2002 has been entered.

2. The following is a statement of reasons for the indication of allowable subject matter: Newly-furnished JP 74039757 (see attached Form PTO-1449) doesn't disclose or fairly suggest the instantly-claimed aqueous polysilicate microgel useful as a drainage/dewatering aid or process for preparing it. The JP document has a multistep method for producing a fine silica powder useful for reinforcing rubber.
